

California OES Weather Threat Briefing

Thursday, November 19, 2020
9:00 AM PDT

- **Day 1 (Thursday):** Much quieter weather returns statewide into the weekend. Watch for areas of dense nighttime and early morning fog in the coastal valleys with otherwise dry and tranquil conditions prevailing.

National Weather Service
Western Region Headquarters
Regional Operations Center
Salt Lake City, UT

WEATHER KEY POINTS

11/19/20 - 11/25/20

Thursday-Wednesday

- Areas of overnight and early morning fog for the coastal valleys the next few nights, with localized very low visibility
- A few lingering light rain or snow showers over far northern California this morning, otherwise quiet weather expected through the weekend with dry conditions and light winds
- Seasonable temperatures for much of the state, though far southern California will see readings above normal for mid November
- Some very light precipitation could return to far northern California Sunday night and into early next week
